Profile summary

Computer Science and Engineering graduate skilled in Java, Python, web development, and DevOps. Enthusiastic about AI, big data, problem-solving, teamwork, and innovation. Having Good enough knowledge about Html, CSS and JavaScript. Adaptable to new technologies, values inclusivity, collaboration, and continuous improvement. Eager to contribute to tech projects, open-source, and hackathons to drive impactful solutions.. I can work any where in India or out of country.

Internships

- **Intern as a Machine learning Engineer At Prodigy Infotech (online)**   *Jul/2024-Aug/2024*

  Skilled in data preprocessing, model development, and deployment, committed to delivering innovative and accurate solutions.

Skills

Programming Languages: Java, JavaScript , Python basics

Front-end Technologies: Html , CSS, JavaScript

Database: MySql

Version Management: GitHub Basic usage

Education

Bachelor in Engineering (New L.J. Institute of Engineering & Technology)   *2025*

- Computer Science Engineering & AI-ML
- CGPA:9.26(Current)

Diploma in Engineering (Government Polytechnic, Ahmedabad)   *2022*

- Computer Engineering
- CGPA:7.11

Projects

Disease Prediction (Group project)

- Web-based disease prediction systems use Naive Bayes algorithms to predict diseases, Providing early precautions.(**Technologies**: Django,python,postgre,html,css)

Certificates

- Introduction to AI by IBM(Coursera)
- Machine learning with python by IBM(Coursera)
- Introduction to Data science by IBM (Coursera)
- Python course by Guvi.in
- Big Data & AI by Great Learning
